

ENVIRONMENTAL COMMITMENT STATEMENT

Higher College of Technology (HCT) Management has an important duty to ensure the integration of the Environmental Management system in all its business operations and to monitor the effective implementation and continual improvement of the management system. The senior management is committed to ensure all campuses are complying with the main environmental objectives which are pollution prevention and environmental protection.

These aims will be achieved through:

- *Incorporating environmental responsibility into all business operations by planning environmental protection and pollution prevention programs throughout the operations and functions of HCT campuses.*
- *Ensure compliance with the applicable Environmental laws, regulations, standards.*
- *Provide appropriate sustainable resources, trainings, facilities and controls to ensure the best practices are implemented;*
- *Provision of clear roles and procedures in regards to waste management to protect the ecosystem maintain a sustainable environment;*
- *Develop and endeavor to achieve the set environmental sustainability goals and targets in support of this commitment statement;*
- *Monitoring and reviewing the achievement of the Environment objectives and targets;*
- *Continually improve our Environmental performance by investing in projects relevant to conserving natural resources, protecting the environment and preventing pollution;*
- *Communicate this Environment commitment statement to all Interested parties including: Employees, students, contractors and visitors of HCT;*
- *Review this commitment statement periodically.*

This commitment statement is 14001:2015 Environmental Management System Elements and this commitment statement applies to all the operations and functions of HCT, and required to be implemented by all employees, contractors, stakeholders and visitors in HCT.

Dr. Abdullatif Al Shamsi
HCT President & CEO
