

# 1<sup>st</sup> Annual INNCUVATION FORUM 2022

REACH.. CONNECT.. LAUNCH

14,15 & 17 FEBRUARY  
2022

Dubai Exhibition Center, Suite 2 South  
EXPO 2020 Dubai

## WELCOME MESSAGE

The 2022 HCT InnCuVation Forum will be held at EXPO 2020 on February 14-16. The forum perfectly interlocks with the official nationwide initiative of UAE Innovates 2022. As you will be aware this national celebration is borne out of the annual UAE Innovation Month, which is one of the world's largest innovation festivals.

It is a unique opportunity for innovators & game changers; academia; and industry & government representatives to collaborate and discuss current issues, trends and world-class research and innovative startups via a series of panel discussions and presentations in **four strategic sectors: Health, Sustainability, Education and Emerging Technologies.**

These four overarching topics will be addressed on first two days of the Forum, while final day will be devoted to being a Startup Pitch Day for budding entrepreneurs to 'soapbox' their daring innovations which cover the four sectors.
