

# Environmental Policy

## ENVIRONMENTAL POLICY

The Management of HCT recognizes its Environmental responsibility and is committed to:

- Ensure compliance with applicable Environmental Regulations, Ministerial Orders, Federal/Local Laws as well as ISO 14001:2015 International Standard;
- Planning environmental programs throughout its business operations and functions; for the protection of the environment and the prevention of pollution;
- Monitor the effective implementation and continual improvement of its Environment Management System;
- Develop and endeavor to achieve the set Environmental protection and pollution prevention objectives, targets and Key Performance Indicators;
- Identification & Management of Environmental risks and opportunities;
- Monitoring and reviewing the achievement of the environmental objectives and targets;
- Provide appropriate sustainable resources, trainings, facilities, and controls to maintain the environmental aspects and ensure the implementation of best practices;
- Provision of clear roles and procedures in regards to waste management to protect the ecosystem and maintain a sustainable environment;
- Continually improve our environmental performance by investing in projects relevant to conserving natural resources, protecting the environment and preventing pollution;
- Communicate this Environment Policy to all Interested parties including: Employees, students, contractors and visitors of HCT;
- Review this Policy periodically.

*Dr. Abdullatif Al Shamsi*  
*HCT President & CEO*
