ADVANCES IN SCIENCE & ENGINEERING TECHNOLOGY

HCT - Dubai Men's Campus

The International Conference on NANOSTRUCTURED MATERIALS & NANOTECHNOLOGY

CALL FOR PAPERS

Dear Esteemed Scientists and Researchers,

The international conference on Advances in Science and Engineering Technology cordially invites you to participate in the First International Conference on Nanostructured Materials and Nanotechnology to be held in the astonishing city of Dubai, UAE. The conference provides a unique platform for discussing key aspects of materials-related Nanoscience and Nanotechnology.

The topics of interest below will attract participant contributions from both academic and industry-based researchers and will focus on:

- | | |
|--------------------------------------|---|
| ▶ Nanostructured materials | applications |
| ▶ Nano-manufacturing | ▶ Emerging applications in Nanotechnology |
| ▶ Nano-fluids | ▶ Nano-electronics |
| ▶ Nanoscience | ▶ Nanocomposites |
| ▶ Nanofabrication | ▶ Nanomaterial characterization and synthesis |
| ▶ Biomedical nanostructures | ▶ Advances in nanotechnology |
| ▶ Nano-Robotics | ▶ Other advances in nanotechnology |
| ▶ Functional nanomaterials and their | |

On behalf of the organizing committee, we invite you to submit articles, proposals for special sessions, workshops, tutorials, etc. Your article will be peer-reviewed by expert-matter colleagues in the field for the opportunity to present your research finding with scientists from all over the world. This will allow you to be up to date with the latest research in the field and provide you with a chance to discuss possible future collaboration. Accepted manuscripts will be published in conference proceedings, books, or international journals. Collaborating publishers will be highly indexed journals.

Please use the URL <https://edas.info/newPaper.php?c=30005> to submit your paper using EDAS. You may will need to register to EDAS.
