

24 & 25 May 2023
HCT - Dubai Men's Campus

The Application of AI in Sustainable Computing

CALL FOR PAPERS

The ITT 2023 conference will consider Artificial Intelligence (AI) techniques dealing with benchmarks related to energy production/distribution, transportation management, urban mobility, ecosystem services, water resources, infrastructure planning & more. It will attract scholars, professionals, research students, and practitioners from a diverse range of IT related areas.

The ITT 2023 conference seeks original research papers that explore the latest applications of Artificial Intelligence (AI) in sustainability, and that present methods to develop innovative solutions related to applications, technologies and theories in sustainability using AI techniques. The research papers can cover any of the topics mentioned in the three fields of Information Technology

Important Dates

Paper submission date:	March 31, 2023
Notification of acceptance:	April 20, 2023
Camera-ready presentations:	April 30, 2023
Conference:	May 24-25, 2023

Review Process

1. All submitted papers will be peer-reviewed by three reviewers from the Program/Technical Committee members
2. Papers are to be reviewed based on full papers, not abstracts.

Additional requirements

If your paper is accepted for publication at this conference, you will need to adhere to the requirements of the conference proceedings publications and sign the copyright form. One of the conditions for the paper to be published is attending the conference and presenting the paper. Unless otherwise there is an emergency, the paper will not be published if the author does not present it during the conference.
